SUCCESS AT BANSHAN !!!! Generator packing for repair shop Singapore.

Dear Kadir,

This is Peter Wu of North Asia CS site Service manager of Power Service team Asia, on the success of Charles' extra effort made the successful result of packing for ocean ship crate for 75 tons 9FA generator rotor ready for shipping at China Banshan Power Plant site. I want to express special thanks to Charles for his extraordinary work result on China BB1 - Banshan.

Charles did an excellent job beyond his generator specialist role and completed rotor packing and crating within very limited time frame. And Charles take the challenge job even other two Asia local generator specialist dare not to take. I really appreciate Charles's extra effort and his great support.

Best regards.

Peter Wu
