Subject: Appreciation letter

Dear Charlie,

I would like to formally and sincerely express my gratitude for the excellent work you accomplished while at Cernavoda Nuclear Power Plant Site: Electrical checks and verifications on the new main generator rotor, Electrical checks and verifications on the previews rotor, maintenance activities for the main generator stator (electrical checks and verifications on the stator, TIL-1098) and for the replacement of the main generator current transformer (CT) gland.

Your attitude regarding all the problems raised was always a positive one, and you never failed to deliver a good solution, documented with a GE procedure, to achieve the result that we expected.

Once again, thank you for your hard work, and I look forward to work with you again in the next Outage.

Best regards,
Ionut Alexandru Ionescu
Senior Superintendent
